Enhanced FMAP Payments to PA

Medical Assistance Payments to Hospitals: Inpatient Payments vs. Supplemental Payments

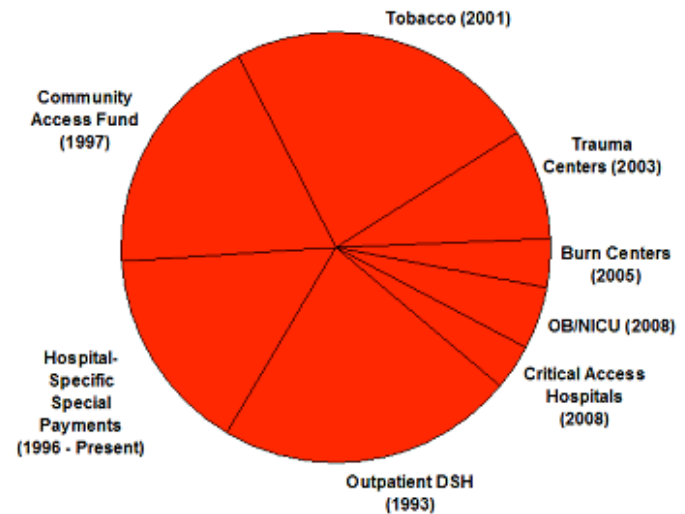

Inpatient Payments

\$1,080,000,000

Includes Inpatient DSH, which is paid outside Medical Assistance rates but is still part of the Medical Assistance system and is mandated by federal law.

Supplemental Payments

\$150,600,000

These supplemental payments are not required by federal law but have been introduced over the years, in the absence of rate reform, to address shortcomings in the rate system.
